

IribovSBW is an independent service laboratory for plant breeding and propagation companies. The services consist of tissue culture, cell biology and molecular and flow cytometric analyzes to support breeding and plant production activities at clients. IribovSBW is part of the Iribov Holding, an international organization with laboratories in the Netherlands, North Macedonia and Ghana. As part of our growth strategy we have a vacancy for an assistant researcher Plant Tissue Culture within the Tissue Culture R&D team. The team is engaged in research into the development of tissue culture protocols for new crops and new tissue culture and cell biological techniques.

Assistant researcher Plant Tissue Culture (BSc/MSc)

40 hours per week

Responsibilities

You will conduct research to develop new and optimize existing tissue culture protocols for a wide array of horticultural crops, apply breeding-support techniques and conduct research into new multiplication technologies. Focus will be on the development of innovative technologies like temporary immersion bioreactors (TIB), to significantly improve speed of multiplication and quality of the produced plants. You work both on plant material as well as on the development of TIB technology. You manage your projects efficiently, and report on project progress.

Profile

In order to fulfill this challenging position, you have obtained a BSc or MSc in the field of plant sciences and you have some years of experience with plant tissue culture or cell biological techniques. You have a keen eye for technology and enjoy working in a multidisciplinary area.

As assistant researcher you have a result-oriented attitude and are able to organize your work. You are able to work independently as well as part of a team and you have good communication skills, both written and oral.

Interested?

For more information about this function, please contact dr. Marcel Toonen, Head of R&D (marcel.toonen@iribov.com). To apply, please send your motivation letter with a current CV to hr@iribov.com.
