

Head R&D

40 hours per week

Iribov

Iribov is a leading laboratory that performs services in the field of plant propagation and breeding. The main activities are tissue culture propagation of plants and various analyses of plants. Iribov has extensive expertise in more than 500 crops in both floriculture, fruit and vegetable crops. Iribov has a strong international market position as an independent supplier. With laboratories in the Netherlands, Macedonia and Ghana, Iribov is an international organization with a total of more than 500 employees. In 2022, approximately 50 million tissue culture plants will be produced.

Job description

Are you passionate about tissue culture and plants and a natural leader?

The research group conducts research, works on protocol improvement and develops new protocols and techniques. You function within the research group. The group is engaged in research into the development of protocols for the tissue culture of new crops and new tissue culture techniques. Research is also being carried out into the application and implementation of tissue culture techniques to support breeding activities at clients. The Researcher himself participates in various research assignments, which are carried out on behalf of the client or on behalf of the parent company. Here, things like planning and inventiveness are of great importance. You manage the R&D Team.

Profile

- HBO or academic education in a botanical direction;
- Good practical skill with plant tissue culture in general;
- You are an experienced leader;
- Good communicative skills;
- Analytical attitude with creative skills;
- Large degree of independence and perseverance;
- Team player with a proactive, loyal attitude towards clients and colleagues;
- Communication skills in Dutch and English;
- A result-oriented and accurate working attitude;
- No 9 to 5 mentality.

Interested?

We offer you an independent and varied position. There is room for personal development and the terms of employment are in accordance with the position.

Do you recognize yourself in above mentioned profile and are you in for a new challenge?
